

Member Update

This update communicates challenges, changes, plus some good news as we reinvent our business on the fly to deliver services to you that bring wellness and fun while also trying to keep our team of 100+ employed and everyone safe. We're getting creative to bring new services, enhancing food curbside pickup and delivery, and we're working on outdoor fitness activities. In the meantime we continue cleaning and sterilizing our hearts out. To facilitate communication we're [posting a page with the latest news](#) to supplement these emails. Thanks for continued support under difficult circumstances.

We are planning to maintain regular hours at the Club this week, though given the fluidity of the situation that is subject to change. These activities are on hold until further notice:

- Tuesday Buffet
- Bridge
- Pasta Night
- Member Socials
- Trivia Nights

Dining, Delivery and To-Go

We have been reinforcing proper cleaning procedures and hand-washing methods for all Club personnel, and set up extra hand sanitizer locations and sanitizing wipe stations. All dining surfaces are sprayed with a solution specifically designed for viruses before anyone is seated at a table, and we're maximizing social distance in seating.

Beginning today, Tue 3/17, delivery of full lunch and dinner menus is available for members who live in Glenmore or Rivanna Village. A 20% gratuity will be added to orders to offset the staff's loss of income.

The [lunch](#) (and pizza) menu will be available 11:30am-5:30pm, and

the [dinner](#) (and pizza) menu will be available 5:30-8:30pm, both Tue through Sun. Order online [here](#). **Takeout** is available whenever the Grill is open--call 817-0507. Let us know the make/model/color of your car (or call the Grill when you arrive) and we'll run your order out for you.

Fitness

Staying strong physically and mentally as well as getting fresh air and sunshine are great health boosters. But our fitness studio's size means we need to get creative to make classes happen with proper social distance. So we're going to be moving classes outside and into the ballroom where we'll have plenty of room to keep a safe distance. **Today's (Tue 3/17's) classes are cancelled. We're aiming to have Wed classes in the ballroom.** RSVP to mark@theclubatglenmore.com for Wed classes so we can plan, but drop in is welcome.

Golf

- To encourage social distancing, we have suspended the two-per-cart rule (except for members of the same family) for both private and rental carts. We'll make every effort to have one rider per cart, though it might not always be possible during peak times, depending on rental cart usage. Walking is encouraged.
- Our cart cleaning process has been enhanced by wipe downs with a sterilizing solution. We're removing coolers to prevent multiple touches. Sand bottles will remain on carts and we'll sterilize them after every round.
- We're removing all rakes from the course to prevent multiple touches. A new local rule applies to bunkers: you can lift and place your ball near where it has come to rest.
- Leaving the flag in the hole when putting is now mandatory.
- If you'd feel more comfortable signing in by phone rather than in person, call the pro shop at 817-0502 to do so--or just wave at us from outside the windows.

Well Wishes

In addition to wishing the best for all our members, employees, and friends and family at large, we also wanted to mention that F&B Director Thomas LeRoy had his hip replacement surgery late last week. We're pleased to report all went well; join us in wishing him a speedy recovery.

Suggestions are always welcome at:
