

## Member Update

### *NEW - Online Pool Reservation System*

Today brings the launch of an online reservation system for pool access. With current state guidelines the pool is limited to lap swimming only in one of six lanes. This new online system will allow for touchless, online access to those lanes, as well as reducing the number of times staff has to handle the same phone. Within the next 24 hours you'll receive an invitation email for the new system. For details on how to use the system (and to reserve swimming times once you've signed up) please see [theclubatglenmore.com/pool](http://theclubatglenmore.com/pool).
