### *Local Schools*

Since Albemarle County announced virtual schools, multiple parent groups have approached us with creative ideas for offering school-like activities at the club. We're sympathetic but also have legal and common sense limits on gatherings which must be followed, and we must also be mindful of protecting our team and all other members with any well-intentioned efforts on our part.

If a group wants to rent space for kids who are in some type of "quaranteam" relationship we will favor outdoor spaces away from other club activities. We also cannot guarantee availability of such spaces. We have lots of acreage but safety, bathrooms and other infrastructure are complicating factors. As a first step, there is survey [here](#) designed by a local parent group to gauge interest in various options. The results will be shared with the club and other parents as well, minus any sensitive information submitted. [Mark Ryman](#) is lead for the club if you have ideas, questions, or want to request a copy of the results.
