NEW - Superintendent's Update - Our wet summer continues. We had a pretty good flood earlier in the week, no real course damage, just a large amount of debris to clean up. We've also been pushing sand up in bunkers and re-edging around them. We've topdressed #5 & 11 greens for a third time post-aeration. They seem to be responding well to the extra sand. While they might temporarily roll a little slower than those on the rest of the course, it's good to see their fundamental turf health coming back.

NOTE - The course is closed to member play Mon 9/21 & 9/28.

Reminder - 1st Annual Gene Corrigan Memorial Tournament - Gene was a long-time club member, former ACC Commissioner & UVA Athletic Director, and a pillar of the local community.
